

Discriminations and people with disabilities

The adoption of measures and the introduction of policies that create conditions of full inclusion of people with disabilities in all aspects of society to combat prejudices and discrimination, remains a challenge despite progress made. We continue to support the struggles of people with disabilities for the full and effective implementation of the UN Convention for Persons with Disabilities, which the Republic of Cyprus has ratified.

Policy positions:

- Resetting and restoring all social support plans for people with disabilities.
- Termination of labor exploitation that is currently underway by many large-scale employers.
- Further strengthening and care for these disabled people.
- Removing obstacles and enhancing accessibility in all areas.
